

# Applications of Gelco gelatin in the manufacture of hard capsules

The Hard-Capsule Gelatin (RHCG) offered by Gelco is a unique product that has been accepted by the hard-capsule market.

For manufacturers of hard capsules, Gelco gelatin makes it possible to eliminate the need for formulating, mixing and the quality control of raw materials (gelatins).

The ability to produce hard capsules with a single gelatin allows for high throughput per machine, while facilitating and accelerating drying.

<b>Application</b>	<b>Bloom</b>	<b>Gelatin uses</b>
Hard Capsules	270 - 300	Preparation of flexible films. Protection of active ingredients. Controlled release of the active ingredients.
