

# Applications of Gelco gelatin in the manufacture of soft capsules

The properties of gelatin are very useful in the manufacture of products with reduced calories as well as with low sugar and low-fat content.

---

Softgel manufacturers have found that the rigidity and elasticity of Gelco pharmaceutical gelatin allows manufacturing capsules that are flexible and strong enough to prevent breakage and leakage during the filling stage.

The low metal content and non-reactive properties of Gelco gelatin offer unlimited possibilities for soft gel products.

<b>Application</b>	<b>Bloom</b>	<b>Gelatin uses</b>
Soft Capsules	180 - 220	Preparation of flexible films. Protection of active ingredients. Controlled release of the active ingredients.
